

To Whom it May Concern,

My family relocated to Connecticut from Malden, MA last year. My daughter Cora attends first grade at the Reggio Magnet School in Avon. Cora loves her school and we are thrilled to have an option for her that can provide a great education while also promote equity in the region. The CREC magnet school's are a vital part of combating segregation in the Hartford region and it is important that the state continue to invest in resources for them. I ask you to please increase funding for the CREC magnet school program this year.

Thank you,

Kate Raftery, BCBA, LBA, Special Educator
